

PHOENIC HOLOGRAM

Independent laboratory testing with the Computronix Z-41, a state of the art computer based bio-electrical scanner, which measures ATP levels within cells, related to the acupuncture points and organ meridians of the body, conclusively show the body's acupuncture/ organ meridians are brought into a state of homeostasis or electrical balance when placement of the Phoenic Hologram occurs in cell phones, portable phones, pagers, computers, televisions, and quartz wristwatches.

Heart Rate Variability studies have proven the application of the Phoenic Hologram on the body, creates Parasympathetic/Sympathetic (Yin/Yang) balance. This relates to a significant reduction in the stress indicators relating to myocardial infarction.

The Phoenic Hologram negates the destructive side-effects of HF Digital Radiation Waves, emitted by cell phones and pagers, as well as protects the body from harmful EMF'S emitted by computers, microwaves, and televisions. It also alleviates the damaging endocrine and neurological effects of quartz wristwatches.

Practical Uses for the PHOENIC HOLOGRAM

- ❖ The Phoenic Hologram is a powerful, healing symbol. You can and should experiment with personal uses and placement. This symbol is not about limits, but about possibilities.
- ❖ The Phoenic Hologram is unidirectional and can be used facing towards or facing away from the body. It has a range of 86 inches. It could fade to white and still resonate until it is burned.
- ❖ Facing the body, it affects the physical nature of the body.
- ❖ Facing away from the body, it affects the electrical fields, the auric field, the blue corona and the merkabah.
- ❖ The Phoenic Hologram can be used in bedding. Here it will have a rejuvenating effect on the cellular structure of the body by manipulating the restful state of the auric field and the merkabah.
- ❖ The Phoenic Hologram can be used with foods. It should be placed face up under the food.
- ❖ Under wine, it will neutralize the negative effects of sulphite preservatives which can create allergic reactions.
- ❖ Under a plate of food, it will negate the frequencies of food preservatives.
- ❖ Under a bottle of baby Castile soap. It will enhance the electrical properties of the soap, which can then be used as a wash, to purify fruits and vegetables.
- ❖ Under vitamins and minerals, it will improve there longevity.
- ❖ Under bottled water, it will prevent bacterial infection and can, to an extent, enhance the pranic energy of water.
- ❖ The Phoenic Hologram can be used in cars. In the air vent, it will purify the air that enters the car. On your car's fueline, it will have a positive effect on gas mileage.
- ❖ The Phoenic Hologram can be used on the back of quartz watches. Here, it is used to counteract the detrimental effects of over stimulation of the sympathetic/parasympathetic nervous system caused by the Quartz. This over stimulation can lead to exhaustion, and poor digestion.
- ❖ The Phoenic Hologram can be used to protect vibrationally sensitive materials, such as homeopathic medicines. It protects these materials from radiation and from the handling of luggage through airport scanners.
- ❖ The Phoenic Hologram is also effective when used during colonics. It should be facing upwards underneath the client. Here, it increases the electrical activity which increases the contraction of the muscles of the colon to increase elimination.
- ❖ People report using the Phoenic Hologram for many things ranging from a meditation tool, for pain relief used on the localized area, on computers and other equipment, to putting them in their shoes.

You decide what is right for you.
